

## Concrete Hopper

Concrete Hoppers - This attachment is a self-dumping hopper which automatically activates to unload whenever bumper release touches the side of a dumpster. After dumping is completed, the hopper returns to an upright and locked position. This particular piece of machinery is likewise obtainable together with a cable that allows operation from the seat of the lift truck in order to have the option of manually unloading the hopper. There is a locking chain provided so as to secure the hopper to the tine truck. This particular product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to be able to maintain durability.
