

TCM Forklift Part

TCM Forklift Part - In the international trade of material handling, lift trucks play an important part for transporting industrial goods. Primarily innovated as industrial vehicles in the 1930s in America, lift trucks gained recognition following WWII in the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machines spread globally.

First established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first lift truck. Throughout the years, TCM forklifts have become a global leader in forklift manufacturing and have built a solid reputation in the trade. TCM started building lift truck manufacturing sites outside of Japan in the 1980s and is now engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly makes numerous models of industrial trucks with more than 50 years of accumulated expertise and technology, making their products used and recognized all over the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aspires to become a world-class leading business.
