

## Rockwell Parts

Rockwell Parts - AxleTech International is a leading supplier in the globe of specialty vehicle drive-train systems and components along with off highway vehicles. The business prides itself on being its clients' chosen supplier. AxleTech strives to exceed and meet their customers' expectations for technology, delivery, quality and service. They believe in working within an environment which supports the utmost integrity with empowered collaboration, together with a persistent pursuit of results.

AxleTech International is a General Dynamics company. They believe strongly in actively applying principals of ecological safety and stewardship in how they do business. The business has put different programs in place so as to articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever questions or comments, as they are glad to share and promote this policy with a greater knowledge of their efforts. They are extremely devoted to improving and preserving the environment. AxleTech has an EHS program which not only protects the natural world but which likewise actively protects their neighbors and employees also.

AxleTech specializes in the manufacture and designing of planetary axles for both military and commercial applications, that could include anything from airport ground support to construction equipment. They take great pride in being an innovative drive-train solutions provider also. AxleTech specifically designs axles to meet certain application demands. They have over one thousand different axle specs within their current offering. With over one hundred years of history and experience, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in many commercial and military applications. They offer complete axle assemblies for aftermarket replacement needs, along with servicing axle needs for OE production. Their high mobility ISAS have extra details which could be found in the "ISAS" product collection.
