

## Meritor Part

Meritor Parts - Meritor is a leading international dealer which is proudly established on a 100 year tradition of service and quality. They specialize in several integrated systems, modules and components to original machine manufacturers and the aftermarket for the transportation and industrial trades.

Meritor values the requirements of their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a philosophy that values diversity of people and their broad thought processes. Operating in 19 nations and employing over 11,200 individuals, Meritor promotes collaboration and innovation amongst a team of knowledgeable professionals.

By just employing future focused workers, Meritor strongly thinks these top-caliber workers would be able to rapidly get used to to changing surroundings and demonstrate the commitment and performance considered necessary so as to attain results in the competitive materials handling business. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor offers all their staff various opportunities for personal and professional development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises axles, drivelines, suspension and braking systems meant for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of their international engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located around the globe in 19 countries and in 5 different continents.

They have their supplier network that is particularly situated in order to support the development of the business. Each regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each part of the company. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise comprised of transactional Green Belts who use Six Sigma tools to business methods and implement lean methods.
