

## Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are at this time 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in service in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive brands of lift trucks, with parts covering more than 120,000 specialized items for all of its automated equipment. Your local Clark Supplier is your complete source for availability of all your parts needs offered by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Internationally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their customers predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the worker restraint system. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark's continual goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the globally accepted quality standard ISO 9001 for every one of their manufacturing plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental restrictions, thus placing them in a dominant industry position.

Clark has chosen the very economical and advantageous system of "Lean Production" for its assembly plants and application of resources. This system was established to acknowledge the most effective method of manufacturing facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the proficiency and excellence of their merchandise while minimizing expenses. The contemporary value engineering program combines innovative product improvement and offers improved customer support and service within the industry.
