

Komatsu Forklift Part

Komatsu Forklift Part - Komatsu Forklift U.S.A. Inc. has an outstanding reputation for building reliable and robust lift trucks. Komatsu is renowned around the globe as a business with a prosperous heritage while retaining an excellent standard of innovation and quality in both design and equipment manufacturing.

Komatsu Forklift U.S.A., Inc., a branch of Komatsu Forklift Co., Ltd., International Division and Komatsu Utility Co., Ltd remains faithful to their pledge of helping to foster a better tomorrow. The company heritage dates back to 1921, when Komatsu, Ltd started out in Japan as a maker of mining and construction equipment. Very soon the business grew into an industry leader and was accountable for constructing Japan's first modern bull dozer and farm tractor.

Komatsu has matured into a global giant over the previous couple of decades due to their expertise and strength in the field of logistics, mining, excavating and construction. Using progressive designs and technological superiority, they continue to be at the forefront of these industries.

Evolving in 1945, Komatsu Forklift Co., Ltd has expanded immensely. Utilizing their improved manufacturing capabilities and progressive design techniques, Komatsu has become acknowledged to manufacture the kind of durable and reliable lift truck that clients across the globe have come to rely on. In 1976, Komatsu Forklift U.S.A., Inc was created to meet the mounting need for its goods in the North American market. To improve expenditures and efficiencies, a state-of-the-art plant was developed in Covington, Georgia in 1990, to merge all U.S. Komatsu Forklift product support and manufacturing operations.

Komatsu Forklift U.S.A. continues to meet the needs and demands of their users globally while remaining a principal maker and provider of modern lift trucks and forklift accessories. Central and Latin America, Mexico, the Caribbean and South America are home to some of Komatsu's satisfied customers along with their North American consumers.

After numerous years of establishing and preserving quality consumer service bonds with clients, Komatsu Forklift recognizes that satisfying the requirements of the customer is paramount. Komatsu starts all new projects and product developments with the customer's input. By welcoming participation and opinions, they are able to ascertain client needs and expectations then cultivate revolutionary models and then build to exceed Komatsu Engineering Principles. Assuring consumers that quality is planned from the beginning and sustained throughout the production, service and product sales processes, allows Komatsu to end up with a top-quality product from start to finish.

The engineers at Komatsu are experts who specialize in designing heavy-duty equipment, lift trucks and construction equipment. Their design expertise assures that every piece of equipment will last in even the toughest applications and environments. Adherence to precise engineering principles permits Komatsu Forklift to meet ISO 9001 standards. Computer aided design and strict internal quality standards all add to superior forklift products. Komatsu Engineering Standards translate the current and innovative technology used in advanced mining and construction equipment into world class equipment.

The modern and efficient factory in Covington, Georgia is a full service plant. This contemporary facility begins the manufacturing process with raw steel which is then welded, designed and prepared. When assembled and painted the forklifts are ready to leave the plant and enter the market. Maintaining quality control through the duration of the manufacturing process, assures clients that the quality is built into Komatsu's products from the very beginning.

Komatsu feels that a product is only as worthy as the people who support it and sell it, their dealers make all the difference. Komatsu Forklift features an excellent network of company sellers and independent dealers who are working hard to outdo expectations. Specialized in all aspects from product sales, service or operating instruction, or aftermarket support, their diverse association of experienced and capable experts are available.
